**ONE OR MORE PAGES IN THIS DOCUMENT ARE DIFFICULT TO READ  
DUE TO THE QUALITY OF THE ORIGINAL**

1,925, within which range 10 feet  
gold. We can learn of no change in  
mine, and the regular dividend of seventy-  
five dollars per foot will be distributed to the  
stockholders out of the earnings of this  
month.  
Savage is also in less favor, declining from  
\$2,060 to 1,900, and closing at 1,915 asked;  
10 feet changing hands. The character of  
the second-class ore is said to be improving,  
and a larger quantity of first-class ore has  
been found recently. A dividend of seventy-  
five dollars per foot will be paid for the month  
of April.

Belcher has been very actively dealt in,  
and 70 feet were sold, advancing from \$1,670  
to 1,718, receding to 1,650, rallying to 1,675,  
and closing at 1,550, s. 30. After the pay-  
ment of a dividend of \$75 per foot for the  
month of April, a surplus will remain in the  
treasury of the company.

Crown Point rose to \$1,400, buyer 30,  
dropped to 1,200, and closed yesterday at  
1,185 bid; 41 feet have been sold. During  
the coming month a larger quantity of ore  
will be taken from this mine.

Alpha has attracted considerable attention,  
at variable rates, opening at \$950 per foot,  
suddenly advancing to 1,425, and then reced-  
ing to 1,100, rallying to 1,325, again dropping  
to 1,275, and closing at about 910. At this  
range 82 feet were sold. At the 315 feet level  
the face of the drift, 18 feet across the lode,  
shows good ore, and in the 550 feet level a  
drift discloses the same quality of ore, 8 feet  
in width.

Chollar declined from \$845 to 770, and was  
sold at the close at 780, some 185 feet chang-  
ing hands. The yield of the mine this week  
has exceeded 1,000 tons of ore, most of which  
has averaged about \$30 per ton. The north  
and south mines are said to show some im-  
provement.

Potosi is also lower, declining from \$890  
to 760, and closing at 775; in all, 90 feet were  
sold. The product of this claim for a week  
past has amounted to some 200 tons per day.

Ophir has been dealt in to the extent of 66  
feet, advancing from \$540, seller 60, to 580,  
receding to 520, and selling yesterday at 545.  
Hale & Norcross rose from \$630 to 530, then  
fell to 580, and is now held at 550. Work  
upon the incline has been resumed.

Empire Mill & Mining Company was sold  
at 475 per share, and is now held at 490.  
The main shaft in this mine is now down 545  
feet, and is to be sunk still deeper. Good  
ore is at present being taken from the second  
and third levels, and also from the south  
mine, in all, some 50 tons per day. The  
company have a sufficient surplus in their  
treasury for the payment of a dividend.

Minerva has been active at fluctuating  
rates, advancing from \$275 to 325 per foot,  
dropping to 280, rallying to 400, receding to  
360, and closing at about 350; within this  
range 198 feet were sold. The shaft is now  
down 410 feet, and at a depth of 475 feet  
drift will be started to explore the lode at this  
point.

Uncle Sam rose from \$295 to \$320, buyer  
31, fell to \$298, and was sold yesterday at  
\$298.

Overman is steady at about \$300. The  
new stock of the Overman Gold and Silver  
Mining Company is now being issued to the  
shareholders of these two companies.

Imperial has been in decided favor, ad-  
vancing from \$230 to \$300, dropping to  
\$285, and closing at \$295 asked; 288 shares  
were sold. In the Holmes ground, a drift  
from the Challenge shaft, 440 feet from the  
surface, has penetrated a vein of very rich  
ore, some 6 feet wide, and the east drift from  
the Alta shaft, has developed a body of valu-  
able ore, at least 30 feet in width. At the  
bottom of this shaft good ore is also found.  
A dividend of \$10 per share will probably be  
declared for the month of April.

Bullion has been very largely dealt in, and  
516 shares changed hands, advancing from  
\$172 to \$195, buyer 3, receding to \$175, and  
closing at \$180. No important develop-  
ments have been made recently.

Confidence (G. H.) has been sold at \$175  
per share. This claim comprises 130 feet,  
and monthly dividends of \$100 per foot have  
been paid for some time past. The present  
product of the mine averages some 50 tons  
of ore per day, worth about \$45 per ton, and  
preparations are being made to open a new  
level at a greater depth.

Burning Mountain has been steadily main-  
tained at \$450, closing at \$449.

Nevada (J. O.) rose from \$45 to \$70, de-  
clined to \$55, and sold yesterday at \$67.  
Within this range 325 shares were dealt in.  
Sierra Nevada was sold at from \$23 to  
\$25, closing at \$23.  
North American sold at \$29.32, and

the Theatre is Bandmaster decorated with  
flags, pictures, evergreens, and flowers.  
A piano and a fine band of music will  
contribute to the pleasure of the occasion.  
During the evening the Turners will per-  
form some of their gymnastic exercises.
